

Specification

Product Description	Asus (RT-AC57U) AC1200 (300+867) Wireless Dual Band GB Cable Router, 4-Port, USB 2.0, 4K Video Streaming
Type	Cable Router
Connectivity	Wireless
Max Wireless Transfer Rate	867 Mbps
Max Wired Transfer Rate	10/100/1000 Mbps
Bands	Dual Band
Interface(s)	1 x RJ45 for 10/100/1000 BaseT for WAN 4 x RJ45 for 10/100/1000 BaseT for LAN 1 x USB 2.0
Wireless Standards	IEEE 802.11a, IEEE 802.11b, IEEE 802.11g, IEEE 802.11n, IEEE 802.11ac, IPv4, IPv6
Frequency	2.4 GHz / 5 GHz
Button(s)	WPS Button, Reset Button, Power Button
Power Supply	AC Input : 110V~240V(50~60Hz) DC Output : 12 V with max. 2 A current
Dimensions (W x D x H)	207 x 148 x 35 mm
Wireless Functions	Wireless router mode Range extender mode Access point mode
Security	64-bit WEP, 128-bit WEP, WPA2-PSK, WPA-PSK, WPA-Enterprise, WPA2-Enterprise, WPS support
Advanced Features	Router app Traffic Analyzer Parental Control Guest Network : 2.4 GHz x 3, 5 GHz x 3 Enhanced media server (AiPlayer app compatible) 3G/4G data sharing Printer Server Download Master AiDisk file server IPTV support
Environment	
Package Contents	1 x RT-AC1200GU Gigabit Router 1 x RJ-45 Cable 1 x Power adapter 1 x Quick Start Guide 1 x Warranty Card
Package Type	Retail
Package Weight	0.6300 kg
Warranty	3 Years

Overview

AC1200 Dual Band WiFi Router with four external antennas and Parental Controls, smooth 4K video streaming from Youtube and Netflix

Concurrent 300 Mbps(2.4GHz) and 867 Mbps (5GHz) throughput for fast WiFi connections.

4 Gigabit LAN ports provide extensive connectivity and 1 USB 2.0 port allows you to connect printers or hard drives for convenient file sharing.

ASUSWRT dashboard for easy router setup and management.

Intuitive ASUS Router App lets you control your network anywhere, without needing to boot up a PC.

Improved coverage and multi-device performance with four external antennas - two each for the 2.4 GHz and 5 GHz bands.

Essential AC Upgrade with uninterrupted WiFi coverage

ASUS RT-AC57U Dual-band Wireless-AC1200 gigabit router with four external antennas and high power technology delivers extremely long operating range. Its 802.11ac high-speed performance is perfect for streaming up to 4K UHD videos, online gaming with support for latest gen consoles such as Xbox One and PlayStation® 4 and performing other bandwidth-intensive tasks. Multi-purpose USB 2.0 port allow printer, hard drive and 3G/4G sharing ; while ASUS AiDisk support allows you to access, share, and stream files from your home PC to internet-connected devices.

Experience super-fast wireless speeds

RT-AC57U delivers superfast gigabit wireless-AC speeds up to 867 Mbps on the 5 GHz band that's 3 times faster than standard wireless-N. This high performance wireless lets you enjoy ultra-smooth online gaming, snappier web surfing and other bandwidth-demanding tasks without a wired connection.

Dual-band connectivity for compatibility and performance

Delivering 2.4GHz and 5GHz concurrent bands at up to 300Mbps and 867Mbps, respectively, RT-AC57U has a total combined bandwidth of up to 1167Mbps. You can perform basic tasks like web browsing and file downloading on the 2.4GHz band, while simultaneously allowing multiple devices to stream in 4K UHD videos or support online gaming and other bandwidth-demanding applications smoothly on the clearer 5GHz band.

Add external storage, printers, and other devices to your network

Make RT-AC57U your media and device center. With built-in USB 2.0 port, connect external storage drives, printers, scanners and many other USB-enabled devices to share with your networked PCs. Having your devices networked, lets you access them easier than ever before.

ASUS Router APP Control Your Network Anywhere

In your increasingly mobile-enabled life, having control over your network via an app is more important than ever. The new ASUS Router App is built from the ground-up to be both intuitive and robust, allowing you to setup your router, manage network traffic, diagnose connection issues and even update firmware, all without needing to boot up a PC.

Dedicated WiFi for your visitors

Share your internet connection with your guests with no need to share your personal password or network resources. ASUS Guest Network supports up to six separate guest networks, each with its own usage limits and password. Guests cannot access your primary network or any other connected devices.

Focus on Your Family

WiFi Pause turns off the internet for a while - perfect for when you need some quality family time!

Hassle-free file sharing AiDisk

AiDisk enables you to share files in the USB disk through the Internet. You can create your own domain name for the FTP server than share files with your friends.

Robust control and optimization with ASUSWRT

With the ASUSWRT dashboard UI, setup, monitor, and control network applications all in one intuitive area. With 30-second setup, multi-device detection, and flexible settings, ASUSWRT makes the most of your network performance.
