## Overview

### *300 Mbps Whole Home Mesh Wi-Fi System*

- **One Unified Network** – With advanced Mesh Technology, Halo units work together to form one unified whole-home network with one Wi-Fi name and one password.
- **Seamless Roaming** – Automatically switch between Halos as you move around your home, always getting the best signal to enjoy the fastest connections for all your devices.
- **Ultra-High Performance Wi-Fi** – Blanket up to 2,200 square feet (200 m<sup>2</sup>) with high-speed Wi-Fi, ideal for 2–4 bedroom houses.
- **Connects over 40 devices** – Enjoy lag-free connection and non-stop entertainment on all your devices, at the same time.

### **Whole Home Coverage**

With Mercusys Mesh Technology, Halo S3 works as a unified system to guarantee a strong Wi-Fi signal in every corner of your home, covering up to 2,200 square feet.

### **Seamless Roaming**

Devices are intelligently connected to the Halo with the strongest signal and highest capacity. No more sudden signal drops or lagging Wi-Fi when you're walking around the house.

### **Non-Stop Entertainment on All Your Devices**

Halo S3 provides fast connections for over 40 devices at the same time. Keep phones, computers, tablets, and smart home and other IoT devices connected and operating at peak performance.

**Expand Anytime**

Halo S3 is compatible with every other Halo model to form a Mesh network. Expand Mesh Wi-Fi coverage anytime by simply adding more Halos.

**Parental Control**

Supervise children and staff by limiting access. Manage when and how connected devices can access the internet.

**Guest Network**

Allow guests to join your Wi-Fi network, while protecting your privacy. Making sharing easy and maintaining security.

**Hassle-Free Installation**

Easy step-by-step instructions on the intuitive webpage allow you to complete installation in minutes.
